

## CONSULTATION EVENT

### Proposed Sand Pit - Land to south of Great Bardfield

#### PROPOSAL

Aggreg8 Solutions is currently preparing a planning application for the extraction of around 1.5 million tonnes of silica sand from land to the south of Great Bardfield.

This high-grade mineral has a variety of specialised uses and would supply projects such as sports pitches, golf courses, equestrian arenas and children's play areas.

The site would be worked in two main phases over a 10-year period, with a scheme of progressive restoration following the sand extraction. The restoration scheme proposes a nature-led conservation scheme featuring open water with peripheral habitat creation. The restoration scheme will introduce a variety of new habitats to the site, significantly increasing the biodiversity of the land once restored.

#### **We invite you to join us to learn more about the scheme**

We are hosting a Public Information Exhibition at:

**Great Bardfield Town Hall, Dunmow Rd,  
Great Bardfield, Braintree, CM7 4SA**

on

**14<sup>th</sup> May 2026**

between

**1:00 pm – 6:00 pm**

The event will be attended by our project team who can provide details of the scheme

We value your opinions and encourage you to attend the event and / or make comments via our dedicated e-mail address: [greatbardfield@aggreg8.co.uk](mailto:greatbardfield@aggreg8.co.uk)
